Objective

Dedicated and proactive BCA student in the final year with a passion for web development and a drive to excel in the field. Eager to leverage theoretical knowledge and hands-on experience gained through coursework and personal projects to contribute effectively to a dynamic web development team. Seeking opportunities to apply and enhance skills in HTML, CSS, JavaScript, and other relevant technologies, while continuously learning and adapting to industry trends. Committed to delivering high-quality, user-centric solutions that meet both client needs and business objectives.

Education

2021 - 2024	Bachelor of Computer Applications United University, Prayagraj, Uttar Pradesh 6.74 CGPA
2019 - 2021	Intermediate Kishan Inter Collage, Varanasi 64.8 percentage
2019	High School Balwanti Devi Inter Collage, Varanasi 65 percentage

Skill

Programming Languages: Proficient in HTML, CSS, JavaScript, and Python for developing dynamic and responsive web applications.

Libraries and Frameworks: Skilled in utilizing Node.js and React.js to build robust server-side applications and interactive user interfaces.

Databases: Experienced in working with MongoDB and MySQL for efficient data storage, retrieval, and management in web development projects.

Design Tools: Proficient in Adobe Photoshop for creating visually appealing designs and graphics, including website mockups and image optimization for the web.

Internship

- **Project Development Using Python Programming (PDPP)**

Completed an internship focusing on Python programming, developing projects encompassing web development, data analysis, and automation.

Demonstrated proficiency in Python libraries and frameworks such as Django, Flask, NumPy, and Pandas.

Collaborated within a team environment to deliver quality code and innovative solutions within project deadlines.

- **Full Stack Web Development:**Contributed to the development of web applications, gaining hands-on experience with frontend and backend technologies such as HTML, CSS, JavaScript, Node.js, and MongoDB.
Collaborated with senior developers to implement features, debug code, and optimize performance.
Participated in team meetings, code reviews, and project discussions to enhance understanding of software development practices and methodologies.
Successfully completed assigned tasks and projects within deadlines, demonstrating strong problem-solving and communication skills.

Projects

- **Online Medicine Store:**Created an online medicine shop employing HTML, CSS, JavaScript, Node.js, and MongoDB for seamless browsing, secure transactions, and database management. Collaborated in a team to design and implement both frontend and backend components, ensuring a user-friendly and efficient platform.
- **Dance Academy Management System:**Developed a dance academy management system using HTML, CSS, JavaScript, Node.js, and MongoDB, enabling efficient class scheduling, student management, and user authentication. Collaborated with a team to design and implement both frontend and backend functionalities, resulting in a streamlined and user-friendly platform

Quaility

- Problem Solving
- Leadership
- Hard Working

Hobbies

- Web Development Exploration
- Tech Blogging
- Volunteer Coding
